Collins Electrical Company, Inc. (CECI) - one of the top electrical construction and engineering firms in Northern California, today announced that it has again been named to Engineering News-Record's (ENR) Top 600 Specialty Contractors listing. The 2016 annual ranking of the Top 600 Specialty Contractors by McGraw-Hill is based on 2015 national revenue.

"Collins Electrical is honored to be recognized in the prestigious ENR Top 600 List of Specialty Contractors," noted Gene Gini, President and CEO. "Whether it's embracing pre-fabrication or pioneering innovative building techniques, our employees are constantly looking for ways to add value to our projects."

Engineering News-Record (ENR) is one of the nation's most influential journals covering the construction and engineering industry. ENR ranks Collins Electrical Company, Inc. #243 compared to #298 in 2015 on the nationwide list of specialty contractors, which includes firms that specialize in areas such as concrete, demolition, electrical, mechanical, steel erection, utility and excavation/foundation, among others. Published online at [www.enr.com](http://www.enr.com), the Top 600 Specialty Contractors listing is published annually.
